

## **Hurricane Dorian in the Northern Bahamas - Thank you for your Support**

HURRICANE DORIAN struck both Abaco Island and Grand Bahama Island in the northernmost part of The Bahamas on Sunday 1st September thru Tuesday 3rd September as a powerful Category 5 storm. Both are major islands in the Bahamian archipelago with substantial populations.

Sadly, fatalities, severe personal injuries, and catastrophic loss of homes and physical infrastructure have been left in the storm's aftermath.

Being 150 miles south of the hurricane's strike location, Nassau (on New Providence Island) was unscathed and is fully functioning.

The Bahamas needs help. Many have contacted us asking how to do so. Thank you for your concerns.

Please consider donating to the following well-established charities:

- **FOR US DONORS (a recognised 501(c)(3) US-IRS tax exempt non-profit)**

**Bahamas Hurricane Restoration Fund**

1629 K St NW STE 300  
Washington DC 20006-1631
