

**DELANEY
PARTNERS**

DELANEY PARTNERS is a leading Bahamian firm of commercial lawyers. We solve complex business legal issues and provide able legal representation in commercial matters. The group was founded in 2012 by John K F Delaney QC, a leading commercial attorney and former Attorney-General.

A boutique commercial practice, the firm brings substantial private sector experience in the core areas of practice required for the international financial centre of The Bahamas and its domestic business community, along with significant public sector service and understanding of the relevant regulatory environment. The firm's core clientele is composed of financial institutions, high net worth individuals, family offices, and substantial commercial enterprises.

The firm's practice has a high degree of international connectedness. To facilitate efficient service across multiple jurisdictions, the firm is the exclusive member in The Bahamas of TAGLaw and the TAG Alliances.

TAGLaw is a global network of high-quality, independent law firms in more than 105 countries. Its members are carefully selected for membership based on professional competence, commitment to client service, reputation within the legal community, and recommendations from existing members. Chambers & Partners, the leading publisher and ranking organisation of law firms worldwide, has for several years accorded TAGLaw its highest recognition for law firm networks. Our Senior Partner is a member of TAGLaw's Advisory Board.

TAG Alliances (one of the top multidisciplinary networks in the world) is a multidisciplinary grouping of networks composed of TAGLaw, the TIAG global network of accounting firms, and the TAG-SP network of specialty advisory firms.

Our group is committed to quality service, professionalism and responsiveness.

We invite you to experience the legal services of Delaney Partners.
